Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant proposed amending the claims to include the limitation of the car inner side fitting portion being nearer to a center line of the vehicle than the car outer side fitting portion when the molding is mounted to the vehicle. It appears that such a recitation would overcome the current 35 USC 102 rejection based on GB 2 362 415, however, further review of the application and possible additional searching will be needed before a final determination regarding patentability of such amended claims can be made. The applicant agreed to submit a response in accordance with Office practice.
